

ICAR –IISS, Bhopal Women’s Cell Activity under lockdown for Covid 19 affected migrant workers

Covid-19 triggered national lockdown and had created hardship for migrant workers across the country. As part of activity of Women’s Cell at ICAR IISS, Bhopal took initiative to provide food, water and clothes to migrant workers. On 18th May 2020, the items were provided to migrant workers who were on highway stranded with support of Bhopal Nagar Nigam. The active participation by the institute staff could make it a successful contribution and reached the needy in time. We look forward for kind support in near future too.
